

Lutein Capsules 20 mg

Nutritional supplement
with lutein, zeaxanthin and vitamin B2

Good to know:

The carotenoids lutein and zeaxanthin accumulate primarily in the macula ("yellow spot") of the eye, the area used for sharpest vision. They help to filter the short-wave blue light that is particularly damaging to the eyes, which is why lutein is often called a "pair of natural sunglasses". Vitamin B2 also called riboflavin, helps maintain a healthy, normal vision.

Lutein Capsules 20 mg

- complement the storage of lutein in the eye
- with riboflavin (vitamin B2) for the retention of healthy, normal eyesight

Each capsule contains 20 mg pure lutein.

	per capsule	% of the recommended daily requirement NRV*	per 100 g capsules
lutein	20 mg	**	4 g
zeaxanthin	1 mg	**	0.2 g
vitamin B2	4.2 mg	300	1 g

*NRV = Nutrient reference value for the daily intake according to VO (EU) No. 1169/2011**

**No reference value has yet been established
