

Hyaluronic Acid Gel

with soothing depth effect on skin, muscles and joints

Hyaluronic acid is a natural substance in the body that is primarily found in the joint cartilage and synovial fluid, also referred to as joint lubrication. Hyaluronic acid gives the joint lubrication the viscous consistency needed to exercise an impact absorbing and lubricating function.

Recommended application:

Apply Herbafit hyaluronic acid gel to the affected area twice per day and massage in. The gel should not make contact with open wounds.

Not suitable for children under 6 years.

Ingredients: Aqua, PEG-40 Hydrogenated Castor Oil, Pentylene Glycol, Sodium Hyaluronate, Rosmarinus Officinalis Leaf Oil, Gaultheria Procumbens Leaf Oil (Limonene, Linalool – from natural essential oils), Lecithin, Benzyl Alcohol, Vanillyl Butyl Ether, Menthol.

Contents 250 ml
